

TEST REPORT NO 447200/26/POZ

Client NOVÁK - papír s.r.o. Stradonice 139 440 01 Peruc		Sample (according to declaration of Client) Sample description: Nova Brown Kraft _____ paper
Sample reception date	22.05.2026	Sample status: no objections Sample number: 447200/26/POZ Sample received from the Client
Start of analysis	29.05.2026	
End of analysis	19.06.2026	
Test report date	19.06.2026	

Test Method	Unit	Result	Criteria	Statement of conformity
# Total and organic fluorine content (TF/TOF) C-IC (determination of fluorine before and after pre-incineration)				
Total fluorine (TF)¹⁾	mg/kg	<20	≤ 50	Pass
Total Organic Fluorine (TOF)^{1) 2)}	mg/kg	<20	≤ 50	Pass

- 1) (PPWR) Regulation (EU) 2025/40 of the European Parliament and of the Council of 19 December 2024 on packaging and packaging waste, amending Regulation (EU) 2019/1020 and Directive (EU) 2019/904, and repealing Directive 94/62/EC
- 2) PPWR guidelines of 30 March 2026 published by DG ENV.

Test: Total and organic fluorine content (TF/TOF) was performed in laboratory TUV Rheinland LGA Products GmbH Köln Germany

Test report authorized by:
 ID: 40, Chemical Analysis Expert, Sekcja Współpracy z Laboratoriami

The test report bears the certified electronic seal of J.S. Hamilton Poland Sp. z o.o.

The results refer only to the samples received and tested. The laboratory assumes no responsibility for the method of sample collection, the conditions of their transport, or for the information provided by the Client, including data that may affect the validity of the test results. When a measurement uncertainty is given, it is an expanded uncertainty estimated for a coverage factor $k=2$ at 95% confidence level and is not including sampling uncertainty, unless otherwise stated. When the conformity is stated J.S. Hamilton Poland Sp. z o.o. applies the simple acceptance decision rule in accordance with ILAC-G8:09/2019, unless otherwise reported. If no criterion for a given test or tests in the analyzed matrix has been specified in the reference document indicated by the Client, confirmation of compliance is not possible. If the "result" column contains a record: "<" or ">", it means, that it is the test outcome directly related to the lower or upper limit of the measuring range of the method. If an expanded measurement uncertainty is given for such a test outcome, it relates only to the lower or upper limit of the measuring range of the method, respectively. In the case where the Laboratory base on the obtained test outcome, "statement of conformity" column presents an opinion and interpretation. This test report may not be copied in part without the prior written permission of J.S. Hamilton Poland Sp. z o.o. The responsibility of J.S. Hamilton Poland Sp. z o.o. is limited solely to the data issued in its original. J.S. Hamilton Poland Sp. z o.o. does not permit the use of the PCA accreditation symbol AB 079 by customers, subcontractors, external service providers and other third parties. For further information please refer to the PCA document - DA-02. The service confirmed by this report is subject to the General Terms and Conditions of Services of J.S.
